

ACKNOWLEDGEMENTS

The St. Albert Community Drug Response Committee was formed as a result of a community consultation process identifying drug use and abuse as an issue in St. Albert. This committee was created to provide leadership in the development of a '*community response*' to address this emergent issue. As part of the committee's mandate to review and streamline existing services and to implement new or enhanced services, it was important to ensure representation from the relevant community stakeholders.

Composition of the Drug Response Committee includes representation from:

- St. Albert Youth Community Centre
- St. Albert Youth Council
- Royal Canadian Mounted Police (RCMP), St. Albert Detachment
- City of St. Albert Family & Community Support Services
- Region 6 Edmonton Area Child & Family Services, North West Office
- St. Albert Public Health Centre
- Alberta Alcohol & Drug Abuse Commission (AADAC)
- Solicitor General, Correctional Services
- Greater St. Albert Catholic School Division
- St. Albert Protestant Separate School District
